## Art For Personal Use

**Thank you for considering commissioning me!**

These prices are for personal usage only, if you're working on a for-profit/commercial project, please email me directly ([feralkiwi@gmail.com](mailto:feralkiwi@gmail.com)) with detailed information on the type of work you're looking for, your budget and any other relevant information to get a quote!

### Personal Use means:

- You are just getting art of your personal character/pets/etc. You are welcome to get it printed and framed for your home, use it as your personal wallpaper, use it in your personal private games, etc.
- You may not sell the art files/prints of the art for profit or use the art files in other media you are going to sell (ttrpg modules etc).
- If you are a YouTuber/Streamer/Etc, you may use the art in public games that are **NOT FOR PROFIT (or are 100% for charity)** so long as you credit me directly for the art wherever the art appears (during your stream, in your social media)
- Accreditation: art by fenix | [www.manicgremlin.com](http://www.manicgremlin.com) | fb/ig/ twitter: @manicgremlin | tumblr: 3gremlins

## Art For Personal Use

### Payment Policy:

- Payment is through paypal invoicing
- Payment Plans are available for everything \$80+ but you must pay a non-refundable deposit before any work will begin on your piece. You must pay your full balance before the final files will be delivered to you
  - Deposit for Digital work: \$25
  - Deposit for Traditional work: \$35
- I do not offer refunds, but I absolutely want to make sure you're getting the art that you want, so I will send you WIPS and updates at each relevant step of your commission to check in with you (so please use an email that you check regularly)
- S/H is not included in the cost of traditional media commissions and will be calculated separately (buyer is responsible for shipping costs)

### Revisions & Updates Policy:

- **Digital art has several revision phases, depending upon the final finish, generally:**
  - Sketch Phases: you approve of the sketch/general direction of the piece. If you don't, this is the phase to make that known!
  - Ink Phase: This is the final lineart stage of the piece, once this phase is approved, no major changes can be made.
  - Color: This is the color phase! Once you approve of the colors, your art will be considered finished

- **Traditional Art is a little different and less linear of a medium, so the phases are a little different**
  - Since paint will wildly change how the sketch looks, I will send you some sketches of how the final will look and do you a few different versions that you can pick from once the paint is down (for the final piece you'll be mailed).

### Coloring Styles:

#### Spot Color/Limited Wash:

This is more of a color wash (digital watercolor-esque look) with a limited color palette- 1-3 colors, where one color is the "shader" color and the other colors are more of a highlight on a specific aspect of the character.

#### Full Color:

This is full color and more of a painterly/cartoonish rendering style. The character will be a bit more literal towards your description in terms of the color of their garments, skintone, magical effects, etc. This has more shading and highlights in general (and can have more dynamic lighting than the wash style)
